

All Round combination ladder

✓ Private use

- For jobs in and around the house
- Light-weight I-profile
- Larger standing surface due to D-rung

All Round reform ladder. Multifunctional ladder for at home

The All Round reform ladder is multifunctional. Use it as a push-up ladder up a façade or set it up in the A-position. The I-profile makes the ladder very light. The All Round is the perfect ladder for every job at home.

The unique D-rung is secured sturdily due to its special shape. The broad surface provides added comfort and the stabiliser improves stability. The push-up hook with safety-catch prevents the ladder from unexpectedly sliding. This makes things safer.

Lightweight, great range

The I-profile makes this ladder the lightest in its field. This also allows you to easily slide the All Round reform ladder in and out.

For every job an All Round

The All Round reform ladder is available in a 2- or 3-part version, in various lengths up to 8.45 metres.

Working safety at height

Work safely with the All Round. The push-up hook with safety-catch prevents the ladder from unexpectedly closure during use. And the stabiliser improves stability.

Easy and compact

Thanks to the lightweight aluminium, the All Round is easy to move. Handy if you use it frequently.

Unique D-rung

The ladder incorporates the D-rung, unique to Altrex. The large, anti-slip standing surface offers more space and greater comfort.
