TL Smart Up Pro. Telescopic ladder for the professional

The TL Smart Up Pro is the first professional telescopic ladder with treads. With the integrated wall distance holder and toolbag, your tools are always to hand. Handy and safe. This telescopic ladder is automatically extendible and has 80 mm deep treads.

The TL Smart Up Pro can be used at variable working heights. The ideal ladder for professionals who need to carry out work on location, such as inspections, repairs or maintenance.

Stable and secure

Stabiliser means you are always sturdy and stable. No matter which position you use.

Tools always to hand

With the integrated wall distance holder, your tools are always to hand. Handy and safe.

Simple to use

The central operating point is unique. With just one movement, you unlock the entire ladder and slide it in automatically.

Working safely

You can always work safely with this telescopic ladder. With the extra deep treads, you are always safe and stable.

ABS technology

With the soft close system the telescopic ladder retracts gradually after unlocking. With this system your hands / fingers are optimal protected.
