Scaffold Trailer De Luxe. The very best scaffold trailer

Get on the road with your scaffolding in complete safety. You know where you are with the Scaffold trailer De Luxe. Whether you have a single- or double width rolling tower. With the double securing points and the innovative attachment mechanism in the rear door, you can secure your scaffolding easily. The rear door can also be used for communication. With your company's logo, you can be sure to be seen on the roads. The Scaffold trailer De Luxe is the most comprehensive scaffold trailer, which takes you quickly and safely to your next job.

Platform height of up to 12.20 metres.

Transport your scaffolding safely with the Scaffold trailer De Luxe. From Safe-Quick® rolling towers of up to 11.20 metre platform height to traditional scaffolding of up to 12.20 metre platform height.

Safe transport

With the double securing points and the innovative attachment mechanism in the rear door, you can secure your scaffolding easily.

Visible on all roads

With a logo sticker on the rear door, you will be seen on every road, by every potential client.
