

Eifel Platform stepladder (EEO)

✓ Professional use

- Extra large platform for working safely
- Easy to use due to ergonomic guardrails
- High safety guardrail for extra comfort when standing

Eifel stepladder. Stepladder with extra large platform

Ergonomic, comfortable and extra safe. The Eifel platform stepladder is the ideal stepladder for the professional. The Eifel offers an extra large platform. This enables you to stand securely, providing greater comfort when working at height for long periods. Guardrails on the stepladder provide added security during use. This makes working at height safer. The handy tool tray ensures that you always have your tools **in reach** when you need them.

Lightweight platform step ladder

The Eifel is a lightweight platform stepladder. Using light materials for this robust stepladder makes it more mobile.

Ergonomic

The Eifel stepladder is easy to use. The ergonomic guardrails provide good grips and ensure the body is positioned correctly.

Optimum standing comfort

You'll stand comfortably on the Eifel. This is due to its extra large platform (36 x 36 cm) and makes working at height safer.

Tools always to hand

The Eifel has a handy tool tray. So you have your hands as free as possible and the tools always at hand.
