

Lima stepladder

✓ Private use

- Rounded treads, for optimal ease of standing
- Secure and safe due to the anti-slip feet
- Light in weight, easy to move

The Altrex Lima. Lightweight household stepladder

The Lima is a user-friendly household stepladder that is ideal for tasks in and around the house. This household stepladder has a modern look and is light in weight.

This household stepladder offers you maximum security. With its rounded treads and knee bracket, you stand comfortably and relaxed. The tool tray also gives you the possibility of placing tools or material on it. The Lima is a complete household stepladder that fits in every household.

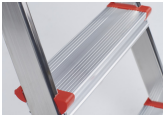

A safe feeling

The Lima has a large platform with anti-slip coating. This gives you a comfortable standing and a safe feeling.

Ultimate support

The bracket is always within reach. The tool-tray with bucket hook provides a handy space for your tools.

Pleasant to use

All treads are rounded. So it is comfortable when leaning against them with your shins.

Non-slip and stable

The feet are anti-slip. So you can be sure that you are always standing secure and stable.
