

Sierra double sided stepladder (SDO)

✓ Private use ✓ Professional use

- For the handyman and professional expert
- Lightweight stepladder through u-shape profiled treads
- Safe in use and prevents finger entrapment due to smart hinge system of the platform
- Can be used on both sides

Sierra (SDO) usable on both sides. The professional stepladder for the handyman and professional

The Sierra is a robust, professional stepladder. It can be used on both sides. Ideal for the slightly heavier jobs at home or for professional projects. Despite the robust design the stepladder is lightweight due to the open step profile.

The solid step feet offer the necessary stability. Moreover, the antiskid profile makes sure you do not slip.

Open step profile, lightweight

The Sierra is a professional stepladder with an open step profile. The stepladder is consequently extremely lightweight.

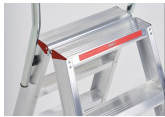

Usable on both sides

The Sierra Double can be used on both sides. This means that you need to move the stepladder less.

Riveted treads

The treads were attached by means of blind rivets. As a consequence they can quickly be replaced should this be required.

Safe hinge system

The Sierra is provided with a hinge system that prevents entrapment of fingers. This guarantees safety.

Product specifications

Item number	type	number of treads	foldable guardrail	storage length (m)	standing height (m)	max working height general (m)	weight (kg)	spread safety	floor surface (m2)	EAN	max loading (kg)
194403	SDO 3	3	Yes	0,75	0,70	2,70	6,50	Strap	0,70 x 0,47	8711563230637	150
