- Easy assembly

Woodytrex Superior. A luxuriously finished loft ladder

The Woodytrex Superior is a luxuriously finished loft ladder. Handy, safe and finished with many extras. Behind the attic hatch there is a sturdy staircase that you can easily pull downwards. This easy to mount loft ladder is the solution for every attic or loft.

We deliver the staircase fully assembled. You only have to install it. The luxuriously finished tray is finished with white plating on both sides. The treads are finished with an anti-slip profile and with the standard provided safety handrail you are always safe. With the Woodytrex Superior you get a complete and luxuriously finished attic staircase.

Many extras

The Woodytrex-Superior has plastic feet and a safety railing. Leaving you stable and safe, at all times.

Saving on heating costs

Drafts are a thing of the past. The Woodytrex Superior has a weather strip and an insulated hatch of 46 mm.

Simple assembly

The loft ladder is delivered completely assembled. You only have to install it.

No interference from tension springs

The tension springs between the box and the hatch are hidden neatly on the inside of the box. This way you are not bothered by it when you walk up the stairs.

Product specifications

Item number	container size (m)	container height (cm)	max ceiling height (m)	turning circle	flap thickness (cm)	weight (kg)	EAN	max loading (kg)
