

Yara single sided stepladder (YEO)

✓ Private use ✓ Professional use

- Lightweight stepladder for professional use
- Deep treads, work safely and comfortably
- With handy tool tray and bucket hook

Yara usable on one side. The lightest stepladder for professional use

The Yara is a stepladder that can be used on one side and that is suitable for professional use. Typical of this handy stepladder is that it is extremely lightweight. This makes the Yara very suitable for activities in, for instance, healthcare or cleaning. The Yara moreover has extra wide treads. This is not just comfortable when standing on them, it also ensures safer working.

The Yara also has handy extras. For instance, the stepladder is extra stable because of conical step feet and it has a handy tool tray and bucket hook.

Deep treads

The deep treads (80 mm) ensure that you always stand safely and work comfortably.

Lightweight

This stepladder is extremely lightweight. You consequently move and transport the stepladder with ease. Because of the robust construction this stepladder is suitable for professional use.

Tools always within reach

The Yara has a handy tool tray and bucket hook. This way your tools are always within reach.
